DETAILED ACTION

EXAMINER'S AMENDMENT

1. The application has been amended as follows: on page 1 of the specification in line 3 between "2001," and "which" the following has been inserted
-- now U.S. Patent No. 6,960,289, --.

Allowable Subject Matter

2. Claims 1-6 are allowed. As discussed during the interview of January 03, 2008 and in Applicant's Response of January 25, 2008 Jung's teachings are directed towards a disc electrode, not a planar electrode such as taught by Diebold. Jung implicitly teaches away from applying his method to a planar electrode as discussed by Applicant. Additionally, from the Figure 1 caption in Jung it appears that Jung assumes Cottrell behavior for a planar electrode so White's algorithm would not need to be modified. For these reasons and the reasons set forth in Applicant's Remarks of January 22, 2007 the Examiner has decided to withdraw the rejections made in the Office action of July 27, 2007.
